Two 5x5 grids showing the results of a 5x5 grid search algorithm. The left grid shows the results of a search for the number 1, with the number 1 highlighted in red. The right grid shows the results of a search for the number 2, with the number 2 highlighted in red. Both grids show the original numbers in black and the search results in red. The search results are the numbers that are adjacent to the target number (1 or 2) in the grid.
